Don't call your best girl a peach for peaches are cheaper and more common than potatoes.

THEODORE ROOSEVELT is probably the richest man that ever occupied the President's Chair.

The new Democratic State Campaign Committee was appointed with Charles C. McChord, of Washington county, as Chairman.

WELLINGTON'S sense of decency ought to lead the brutal Senator to resign, and probably would if Wellington had any sense of decency.

A Nihilist leader says that when the Czar of Russia has been assassinated, the policy of assassination will be abandoned by the anarchists.

The Cincinnati Commercial-Tribune thanks the Lord that Czolgosz was not born upon American soil. When did Michigan get out of America?

"The Allied Third Party" is to be the outgrowth of the conferences of seven reform parties in Kansas City. An address outlining the purposes and policies agreed upon is to be issued.

It is said that a new cigarette has been introduced and is called the musical cigarette. Every time you take one from the box a miniature music box plays "Nearer My God to Thee."

NINETY-ONE-YEAR-OLD PETER PASSAGE, a wealthy farmer of New York, married Mrs. Henry Gross Mesmen, aged eighty-five years. This ended a romance beginning in Southern Kentucky in their youth, when they were engaged, but the girl's father interfered.

ACCORDING to some eminent jurists a crowd of anarchists could hold a public meeting on the streets of any city or the roads of any county in America to-day, and there is no law, State or Federal, that could reach them. If this be true—and doubtless it is—the time has come when we must pass another law.

With so many millions of people in an energetic rivalry and with so many elements, fortuitous or otherwise, in constant operation, we may expect the business sky to be sometimes clouded and sometimes clear, in the future, just as it has been in the past. It is not unreasonable, however, for us to indulge in the hope that there may be no change for the worse and that it does come it will be of short duration and of moderate degree.

ONCE upon a time a certain man lost a finger just because he wanted to assure himself that a rapidly revolving buzz saw was in motion, and now it is learned that he has a sister afflicted equally as bad. She was at the New York Zoological Garden, and to assure herself that an enormous crocodile was neither dead nor asleep, she waved her handkerchief in his face and only the prompt attention of a keeper, who suddenly hurled the woman back, saved her arm from being lacerated between the teeth of the amphibious reptile. The moral attached: let others do the investigating.

A Plea For the Colonels.

Oh, tell us not the crop has failed;
Revive our hopes anew;
For if there isn't any corn,
What will Kentucky do?
—Washington Star.

A New Buffalo.

This excellent company presenting the new and up-to-date farce comedy "A New Buffalo," will appear at the Opera House next Thursday night. This is one of the best farce comedies on the road. It is similar in a great many respects to "Hello Bill," which made such a hit here last season. A full orchestra and band is carried by the company. The comedy is interspersed with some very catchy songs and dances and the costumes are said to be gorgeous in the extreme.

The Antlered Brethren.

Another class of twenty-seven were initiated into the mysteries of Elkdom by Paris Lodge on Wednesday night. The lodge now numbers one hundred and sixty members, and is considered one of the banner lodges of the State. Arrangements are going forward rapidly for the building of their new home, and it is confidently expected by another year they will be occupying one of the prettiest lodge rooms in the South.

We are still making high grade photos. Call and see the latest. Everything strictly up-to-date.

L. GRINNAN & SON.

THE Rocky Mountain Interstate Medical Association seems to be divided in opinion as to the usefulness of the vermiform appendix. Some of the members present affirmed their belief that human health would be better without it, while others took a decidedly opposite view. The discussion closed in due time, for meanwhile, it is to be observed that the vermiform appendix remains where it is.

THERE are 122 cotton mills in operation or under construction in South Carolina, and on the basis of Assessors' returns their actual value is estimated at \$31,000,000. This makes cotton manufacturing an extremely important industry in a state of the size and wealth of South Carolina, and marks a great change in conditions since the time when its people were engaged almost exclusively in agricultural or trade.

THE suggestion, by John W. Mackay, of the Vigilance Committee and hanging by mob law as a remedy for anarchism is little better than anarchy itself. The doctrine that like cures like, or, as the homeopaths put it, "similia similibus curantur," may have some force in medicine, and the hair of the dog may be good for the bite, figuratively, but that lawlessness will cure lawlessness is a theory which should find advocates in no civilized country.

Oil for the Children.

Give them oil—cod-liver oil.

It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anæmic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.

Send for free sample.
